Product

InTourney Event Management

Unlock Event Management on your self-hosted InTourney install. Run multi-sport tournaments end to end — office sports days, inter-school competitions, and community games — with automatic brackets, schedule optimisation, live standings, staff workspaces, and a public results site. The app runs on your own server; this subscription keeps the Event Management capability active. Cancel any time and your install falls back to the free tier without losing data.

Pricing Options

Plan	Price
Event Management	Rp199.000 / Monthly
Monthly billing	
Participant CSV import/export, Unlimited events, sports, and participants, Live public results site and content sharing, Automatic brackets, scheduling, and standings, Self-hosted — your data stays on your own server, Staff workspaces with per-event roles and access control
